

# Operate an Atmospheric Testing Device to Determine a Suitable Atmosphere Exists to Work Safely in (25510)

## Course Information Sheet

This training course covers the use of electronic gas detectors to test the atmosphere to determine if it's safe for the proposed work.

By completing this course it is expected that employees required to enter or control a workspace will be able to safely test the atmospheres for possible hazards and have the necessary knowledge to enable repeated safe exposure to such work activities

<b>Accreditation</b>	This course is nationally accredited throughout New Zealand.
<b>Title</b>	Operate an atmospheric testing device to determine a suitable atmosphere exists to work safely in (25510)
<b>Certification</b>	A statement of attainment is awarded for successful completion
<b>Interactions</b>	Confined Space Entry
<b>Re-accreditation</b>	Draeger recommends reaccreditation annually or at least biannually
<b>Attendees</b>	People who are required to test an atmosphere to ascertain if it is safe to enter and work in.
<b>Duration</b>	4 hours
<b>No. of Attendees</b>	12 max
<b>Venue</b>	Usually conducted at the clients premise, off-site training can be arranged.

### Course Content

- ✓ Understanding the need for and the application
- ✓ Understanding of the role and function of all components
- ✓ Relevant legislation and AS/NZ standards
- ✓ Terminology used in gas detection
- ✓ Selection and calibration pre-use
- ✓ Use and interpretation of results
- ✓ Identify hazards and control methods
- ✓ Understanding of the menu structure basics
- ✓ After use care and basic fault finding
- ✓ Written and practical assessment
