Pack2Go[®]
One-stop. One-step.

The future of accessories

Pack2Go® Ventilation and Anesthesia Packs

With Pack2Go® Dräger now provides a combination of different accessories and consumables as a one-stop, one-step solution.

ONE-STOP:

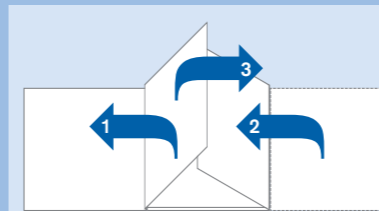

With our extensive portfolio of disposable accessories for use in ventilation and anesthesia all required products are supplied by Dräger. Hospitals can simply order all relevant accessories in one package.

ONE-STEP:

Changing the device from one patient to the next in one step is as easy as possible – without sterilization delays or time-consuming assembling activities. All products are tested for compatibility with the relevant Dräger devices.

Using Pack2Go® solutions with their disposable components supports hospitals in preventing cross-contamination, assuring that only clinically clean products will be used by caregivers. Our concept supports the hospitals' logistics and clinical processes as well as their cost structures.

Pack2Go® single components at a glance

To see which single components belong to which Pack2Go®-package simply fold this sheet under the individual Pack2Go®-package-page you are interested in.
